

VIRCO COLORS

VIRCO COLOR PROGRAM

Virco products are available in an inspiring array of colors and frame finishes, allowing a full range of expression from traditional to progressive. Because color has such an impact on how individual products are perceived, and furthermore because a roomful of furniture can read differently than an individual sample, we encourage you to order samples to confirm compatibility with your overall design plan. Please see that back page of this brochure for information on how to order samples.

Virco offers three lead-time specific color programs: **Quick Ship** – products ship in 10 days or less; **Classroom Basics** – products ship in 4 weeks or less except during our peak season of July and August; **Full Palette** – products ship in 4 – 6 weeks except during our peak season of July and August. These specific programs, models and color combinations can be found in our price list.

In addition to our Quick Ship, Classroom Basics, and Full Palette programs, Virco is capable of providing custom colors and finishes for your specific project. Because of the capabilities and processes available in our U.S. Factories, we have the ability to do custom color matches from samples or swatches for plastics, powder coat, laminates, edge treatments, as well as custom logo designs. Extended lead-times may apply on custom projects.

CAUTION: Due to color reproduction variability in printed materials and digital media, Virco recommends that you review product colors on sample coupons or swatches before purchasing to confirm that your product color choices coordinate with the interior spaces for which these products are intended. Virco will provide complimentary sample coupons or swatches for plastic, laminate, powder coat paint and upholstery colors; however, it is the customer's responsibility to request these sample materials. Once you've submitted your request, your Virco Sales Representative will be happy to assist you with this process.

NST

Virco's Clear Coat is a transparent secondary powder coat finish that adds extra sheen and protection when applied over other Virco paint finishes. Clear Coat cannot be used as a secondary finish over Virco's Natural Steel paint finish.

Natural Steel is our unique finishing process that allows the natural patina of raw steel to show through a protective layer of clear urethane-based powder coat. The authentic nature of the steel, including the heat effects of welding, are clearly visible with this finish. Appropriate for a wide variety of settings, the overall silvery-bronze hue of Natural Steel harmonizes with wood-grain laminates, wood veneer, or solid wood tops.

SURE EDGE® COLORS

Virco's durable, water-resistant Sure Edge® optional finish is now available for an expanded range of tables, student desks and combo units.

Sure Edge forms a seamless, chemically bonded seal that prevents food particles from lodging in table-top edges. As a urethane-based sealant that's applied with an innovative anti-bacterial process for extra cleanliness, Sure Edge won't peel or flake; it even resists fading when exposed to direct sunlight.

For years, we've offered the urethane-based Sure Edge as an option on our mobile cafeteria tables. But now, in response to customer requests, we're offering an array of TEXT®, Plateau®, 8700 Series and 4000 Series table models with the Sure Edge finish. In addition, selected combo units and student desks from our Metaphor®, 9000 Classic Series™, 785 Series and other product lines with 18" x 24" high-pressure laminate tops are available with Sure Edge. Please consult your current Virco price list for the availability of specific models.

Minimum quantities and extended lead-times may apply to some of the **Sure Edge®** colors for selected products shown in this catalog. Please contact your Virco representative or consult Virco's current *Equipment for Educators™* price list for more information.

WOOD COMPOSITE LACQUERED EDGE FINISH

Shown here are standard edge treatments for 5/8" MDF or particleboard, high-pressure laminate tops on single-pupil desks, chair desks, combo units and 165 folding chair tablet arm models.

CIVITAS® LACQUERED PLYWOOD EDGE FINISH

Shown here are standard edge treatments for 3/4" plywood, high-pressure laminate tops on Civitas table tops with a beveled edge.

PLASTIC/UPHOLSTERY COLORS FOR SAGE™ & ANALOGY™ PADDED SEATS

HOW TO REQUEST COLOR SAMPLES

Customers may request individual color samples from this brochure by contacting their local sales representative or by calling Virco direct at:

800-448-4726

Virco Product Certification

Virco will repair or replace at its option any Virco furniture or equipment product which proves to be defective in original material or workmanship as long as the product is owned by its original purchaser. This warranty covers products manufactured after 1/1/2014 and is subject to certain qualifications and exclusions. Please contact customer service for a copy of the complete warranty at 800-448-4726.

UL/Greenguard is a third-party certification for low-emitting products.

Virco is proud to be the first manufacturer to earn UL/Greenguard Children & Schools certification for classroom furniture.

For more on Greenguard certification, or to download printable certificates for Virco's Greenguard-certified products, visit www.greenguard.org. We look forward to continuing our industry-leading work with Greenguard!

Virco's U.S. manufacturing facilities – and American Workers – expertly process wood, plastic and steel to offer you thousands of dependable furniture and equipment choices with excellent lead-times and a rainbow of color and finish choices.

Virco's mobile tables are UL certified. Testing at UL certified test labs for tip over, vertical stability, top, bench and seat load test, wheel securement test, as well as radiant flame spread test on all of our top, bench and molded seat assemblies, assure Virco is providing customers the safest and highest value available in mobile tables.
